The minibus you can drive
on an ordinary licence*

London Hire
Accessible Vehicle Rental

Nationwide coverage, operating from depots in: London – Kent – Milton Keynes – Rotherham

Comfort, Safety and Flexibility

Minibus Lite is a unique lightweight minibus available in three specifications all of which can be driven on an ordinary car licence, subject to conditions. The advantage of this to organisations is it allows more staff to drive the minibus without incurring the cost of training for a D1 licence. Thousands of hours of research have gone into making the Minibus Lite a truly lightweight minibus. Extensive use of advanced composites has resulted in all three specifications weighing in at below the 4250kg* threshold, the point at which a D1 licence is required.

What are the benefits?

- Save a minimum £900 per person for D1 training which only has a 60% pass rate
- FIXED monthly rental rate
- FLEXIBLE contract (This is a 5 year fully flexible contract that will be reviewed on an annual basis, whereupon you the client after the first 12 months may continue for a further year or return the vehicle with just a 2 month notice period)
- FREE replacement vehicle
- FREE collection & delivery
- NO mileage restriction
- NO hidden costs
- 24 hour breakdown
- TAX & MOT (Inc. a Free Valet)
- Fully inspected every 12 weeks (one being the MOT)
- Maintained to the highest standard
- Tyres (fair wear and tear)
- Easily removable seats for up to 4 wheelchair Passengers or luggage storage
- Built with the highest quality material to ensure longevity and durability
- Less fuel consumption lowering your carbon footprint

***Drivers will need to have held there licence for a minimum of 2 years and be over 21 years old.**

Choosing the Minibus Lite will give you confidence and peace of mind enabling you to concentrate on what really matters..... the pupil's education.

Minibus Lite can save you £1000 per person in training for a D1 licence

The majority of minibuses exceed the weight threshold meaning a D1 licence is required. All three Minibus Lite specifications fall within the weight threshold for being eligible to drive a minibus without a D1 licence (assuming you are driving under a Section 19 permit). Because of the fewer licence restrictions organisations can give more members of staff access to the vehicle. Ultimately this will save the organisation money in costly D1 licence training. For example, training for a D1 licence costs approximately £1000* per person and the national pass rate is just 60%. Over 5 years the additional cost for training four staff per year would be £20,000 - nearly the cost of a new minibus.

*the figure of £1000 is an estimate based on the DSA test fees, the typical cost of a 2 day training course to prepare individuals for the test, and the cost to replace a member of teaching staff over the period.

16 or 17 M2 tested seats,
3 point seatbelts and fully
carpeted interior

All-age 3 point
seatbelts and seatbelt
anchorages tested to
EEC Directive

Extending step, grab rails,
and slip resistant floor
for safe access

Well equipped cabin
comes with electric
windows, CD radio
and 6 speed gearbox

Legally Driving a Minibus

Minibus regulations and your licence

To be able to drive a particular type of vehicle you need entitlement for that category on your driving licence. To ride a motorcycle you need to have A1 entitlement, to drive a bus you need D entitlement and to drive a minibus you need D1. The date you passed your test will determine under what circumstances you can legally drive a minibus. The reverse of your driving licence will show you your personal entitlements.

Did you pass your test BEFORE 1 January 1997?

Drivers who passed their car test (referred to as category B entitlement) before 1 January 1997 were automatically given D1 entitlement to drive a minibus with 9 to 16 seats (17 seats to include the driver) assuming they are driving it not for hire or financial reward.

Did you pass your test AFTER 1 January 1997?

If you passed your test on, or after, 1 January 1997 you were not granted D1 entitlement. However, the category B entitlement you would have from passing your driving test allows you to drive a 9 to 16 seat minibus (17 seats including driver) under a Section 19 permit provided the following conditions are met:

- you have held a category B licence for at least 2 years and are over 21 years old.
- you receive no payment or consideration for driving the vehicle other than out-of-pocket expenses.
- the minibus has a gross weight not exceeding 3500kg (or 4250kg with reduced mobility)

If you have passed your test on or after 1 January 1997 and you wish to drive a minibus with a gross weight in excess of 3500kg*, or 4250kg with reduced mobility, you will have to take and pass a D1 driving test which can be costly and inconvenient.

* the bus operator will require a Section 19 permit

Reduced Mobility Option

Specification 3 - Reduced mobility

Features include

- Retractable side step
- High visibility handrails
- Removeable seats to create space for specialist passenger equipment or luggage

Lightweight seats are easily removed

Useful luggage and kit space

Specification 5 - Wheelchair accessible

Features include

- Inboard lift
- Four point wheelchair restraints

Inboard lift

Plenty of space for wheelchair passengers

Benefits of Contract Hire

Compelling reasons to use Contract Hire

Contract Hire Features

- Breakdown recovery service, including home start and relay.
- Replacement tyres (Fair wear and Tear), batteries and exhausts.

Scheduled Maintenance Programme - London Hire will ensure that the vehicle that is provided to you will never miss a scheduled maintenance appointment in accordance with VOSA requirements.

Release Capital - If you are currently purchasing your vehicles through your own funding, you are inadvertently tying up a valuable proportion of your company's financial resources. Contract Hire releases these funds for more profitable use.

Accurate Budgeting - With Contract Hire, all costs are calculated by experts and built into a fixed monthly payment. Vehicle costs can be forecast accurately for up to five years. Paperwork is almost eliminated and budgets tightly controlled.

Flexible Terms - London Hire are offering 5 year rental rates on a year to year fixed contract term. This way you can start enjoying the benefit of long term rental rates with no long term commitment.

Tackles Depreciation - Owing to our buying power, we can purchase vehicles at cheaper rates. Efficient vehicle disposal always enables our Finance Houses to accurately assess resale values. Only the minimum depreciation is passed on to our customers, resulting in realistic rentals.

Improves Cash Flow - Contract Hire will improve your company's cash flow through low initial outlay. N.B. London Hire only requires one month's advance rental.

Freedom of Choice - We can supply a whole range of Wheelchair Accessible vehicles at competitive Contract Hire rates. You choose the model, colour, specification and accessories to suit you. We then offer expert and unbiased advice on all makes and models that might meet your needs and budget. In addition should your requirements change midterm, London Hire will work with you to find a more suitable vehicle without any financial penalties.

Off Balance Sheet Funding - Contract Hire is classed as an operating lease, which means that the vehicles do not show as depreciating items on your balance sheet. Rentals are classed as a revenue expense and are shown in the profit and loss account.

Reduces Administration - Are your management and staff currently weighed down with time consuming vehicle administration? Contract Hire releases them from this burden, so they can achieve more profitable objectives. Contract Hire significantly reduces paperwork. Road fund licence supplied and renewed automatically.

Mileage & Maintenance Reviews - There is no millage restriction on the Minibus Lite product.

Peace of Mind - With monthly payments fixed over the entire contract period and a range of optional extras, Contract Hire takes away the worry and trouble of managing your fleet.

Green Credentials - London Hire are keen to work with our clients to ensure that you are offering the greenest technology and fuel saving benefits to your local community.

All you need to do is insure and fuel the vehicle and we will do the rest!

Dimensions & seating plans

All Boxers are 2.5m wide

Putting Your Safety First

Minibus Lite achieves its light weight through the extensive use of advanced composite materials which are renowned for their high strength and low weight. Achieving a low weight has not been achieved at the expense of safety. Our teams of designers have ensured that Minibus Lite is fully compliant with all European regulations while hard wearing materials are used predominantly throughout the minibus to ensure longevity and durability.
